

Covid-19 Our commitment to your safety

We fully understand that we now live in a different world, and our customers will want to know that we are doing everything we can to keep our establishment safe and hygienic. We understand that everyone also has their own subjective opinion about the virus. But we have to take the risk very seriously. Accommodation establishments remain a high-risk environment simply because we welcome customers from all over the world.

The data concerning corona virus infections in our region and our population do not accurately represent the level of risk of hotels. The slightest relaxation of our protocols on your part or on our part could lead to the closure of our business, the cancellation of holiday plans for our future customers and of course, our health. This is a scenario that we will do everything we can to avoid.

As a result, we have changed many of our daily practices and services to minimize the risk of contracting and spreading the corona virus. All of these rules will be constantly revised and subject to change, in accordance with government advice and "best practice". These protocols are in place to protect you, ourselves and other hotel guests. We want you to understand and respect them.

We have reviewed our services and revised some of our practices which mean less face to face contact with guests. This is a strange concept for us as we have built our reputation on warm, family run hospitality. We have put together the following information to help you feel confident that you may book with us in safety.

FLEXIBLE RESERVATION POLICY COVID-19 RISK ASSESSMENT COVID- 19 GUEST INFORMATION SHEET

Check in time is not before 4pm to allow time for cleaning. If check-in is likely to be later than 8pm or you are delayed please contact us to confirm your E.T.A. Check out is by 10am. On departure please open all windows to ensure the property is well ventilated before housekeeping is carried out.

SLEEP SAFELY

For your safety, we have completely revised our cleaning regime for rooms and public spaces to limit the potential presence of residue of any virus on the surfaces, and to allow us an intensive cleaning of the rooms. Specific rooms may not be available as rooms will be allocated so as to allow a safe period between guests.

Some soft furnishings and decorative bed items (bed runners, patterned cushions) may be removed from our beds. Each bed will always offer freshly and hygienically cleaned linen.

For stays of more than one consecutive night, during this period of higher risk, and in order to respect your personal space we will not perform servicing on your room during your stay. However, new towels and other supplies will be available upon request. Tea and coffee making materials will be provided each day as required.

EAT SAFELY

At the present moment we will be offering a cooked breakfast, details will be provided on our website or in your room.
